

Sonoran for Miles:

Ah, the Sonoran Desert,  
where life dies but  
also thrives.

A place that is very hot  
and makes you look as small  
as a dot!

It's sand for miles  
don't you agree? This  
place was once the  
sea!

I know it's very hot,  
but it's wonderful, you agree?  
and if your lucky you'll find a  
bee!
